Math+: Advanced Mathematics Learning Opportunity

Gain an edge – with skills that matter

This is John Russell, a Mathematics Instructor at Christian Brothers College High School. I have joined RedwoodPrep to teach an Advanced Mathematics class, **Math+**, this Summer for rising 6th to 9th graders. This course focuses on Number Theory.

I strongly believe in Math+ and would encourage your family to participate. Each Math+ course explores 1 major idea included in Stanford University's introductory math sequence. This is world-class content tailored to younger students. I continue to be impressed by how students get excited and passionate about math during Math+. We want students to be excited about math – and Math+ does a great job doing just that.

This season's course will be taught at Christian Brothers College High School on Mondays and Wednesdays from 3:30 to 4:30 pm starting on Monday, June 2 for three weeks. The program will cost \$250. Families can sign-up at www.RedwoodPrep.com.

This Summer, the Math+ course will focus on Number Theory – the study of integers (e.g., -1, 2, 3). Over the six classes, we will explore different aspects of this critical concept and will learn what Number Theory is and how it relates to computer applications and important topics including cryptography.

Most interested students can succeed in Math+. I find that students with a gift for math or a real desire to participate can succeed and learn a lot. Students interested in advanced math classes, high performance on standardized exams or general math ability will particularly benefit.

If you have any questions, please reach out. I hope to work with you and your family on this exciting program.

Best,

John Russell
