ST. GIUSEPPE MOSCATI: DOCTOR TO THE POOR

Giuseppe Moscati, "the holy physician of Naples," as a medical doctor and layman in the early twentieth century who came from an aristocratic family and devoted his medical career to serving the poor. His research also led to the discovery of insulin as a cure for diabetes. Moscati regarded his medical practice as a lay apostolate, a ministry to his suffering fellowmen. Before examining a patient or engaging in research, he would place himself in the presence of God. He encouraged his patients to receive the sacraments.

SCIENCE, THE ORIGIN OF THE UNIVERSE, & GOD BY FR. ROBERT SPITZER

All too often, science is falsely pitted against Faith to disprove the tenants of Christianity. In this informative talk, Fr. Robert Spitzer, SJ—expert in physics, philosophy, and theology—debunks this powerful myth as he discusses the Big Bang and the origin of the universe with sound reason, credible science, and faithful theology. This talk is a must-listen for anyone wrestling with the biggest questions regarding science and Faith.
